Are you interested in studying biological science? Yes No
 If so, do you have an area of interest? (ex. Fisheries, Wildlife Management, etc.) _____

Circle an answer for each category
 Have you taken: Trigonometry: Yes No Chemistry: Yes No Physics: Yes No

Where do you plan on attending college (name/state)? _____

Regional Corporation your parents belong to/or you are affiliated (circle all that apply):

Ahtna Aleut Arctic Slope (ASRC) Bering Straits Bristol Bay Calista
 Chugach Cook Inlet Region (CIRI) Doyon Koniag NANA Sealaska 13th Region

Ethnicity (Circle all that apply):

Aleut American Indian Asian/Pacific Islander Athabascan
 Black Haida Inupiaq Hispanic Tlingit Tsimshian White Yupik

Include this application with the following items:

1. Official copies of your current high school transcripts
2. Official copies of SAT/ACT Scores
3. Current Résumé
4. Three (3) reference letters from teachers or counselors on why you should be selected for the ANSEP Biological Sciences Summer Bridging Program.
5. Proof of Alaska Native Heritage/BIA or Village Card (if applicable).
6. An essay of no more than 500 words explaining why you should be selected as an ANSEP Biological Sciences Summer Bridging Program student.
7. On a separate sheet write a list of **four (4) goals** on what you want to get out of the Summer Bridge Program. Please be specific to your interests.

Send your completed application packet to:

ANSEP Biological Sciences Summer Bridging Program

ANSEP Biological Sciences Summer Bridging Program is a 10 week summer program that will pay you up to \$5,400 (combined summer wages and scholarship) for college. ANSEP Sponsors pay the majority of your expenses, so you show up with a positive attitude, ready to work, and ready to have fun. This could be the most important summer of your life!

ANSEP Summer Bridging Students 2006

ANSEP Biological Sciences Summer Bridging Program includes:

- * Two weeks of safety and field work training.
- * A 4 week internship in the field with biologists.
- * A 4 week college math course that prepares you for university math in the fall.

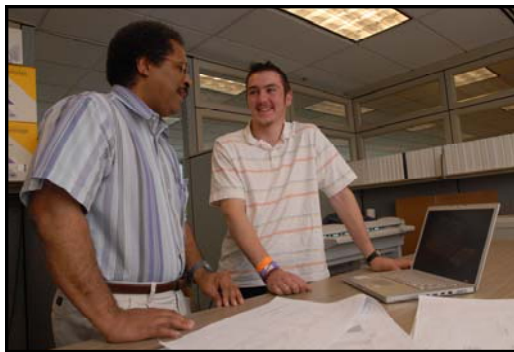

ANSEP will find you a job working with a professional in your area of interest.

- * During the safety/field training and math portion of the of the program housing is provided on the University of Alaska Anchorage (UAA) campus in the residence halls. Everyone gets a private single room.
- * During the 4 week internship housing will be provided in the field.
- * Field work will give you hands on training that will help you better understand careers in the biological sciences.
- * You will be eligible for a \$3,000 scholarship after graduating and successfully completing the program.

Frequently Asked Questions about the ANSEP Summer Bridging Program:

What is ANSEP the Biological Sciences Summer Bridging Program?

ANSEP Summer Biological Sciences Bridging Program includes an internship that provides a source of income for college bound students and opens doors to careers in biological sciences. The Program is 10 weeks long and begins during the first week of June and ends the second week of August.

Who can be a ANSEP Summer Bridging Student?

Students must be in their senior year in high school and graduating in May/June 2007.

How do I become an ANSEP Summer Bridging Student?

First, complete the application on the back of this brochure. Students **must** have passed high school Algebra II, chemistry, and physics successfully.

What should I expect if I am selected?

- * All ANSEP Summer bridging students **must** live on the UAA campus in University housing during the Anchorage portions of the program, even if they live in the Anchorage, Eagle River, Chugiak, Wasilla, or the Palmer area.
- * Two weeks of safety and field work training that will prepare you for your 4 week internship in the field.
- * You will be a member of a team that participates in a 4 week, 5 day a week collaborative math course. All work will be in groups with other ANSEP Summer Bridge Program students.
- * Four week paid internship experience. You will work at least 5 days a week and 8 hours a day in the field with a biologist.

What are the benefits of the ANSEP Summer Bridging Program?

- * Real life paid work experience as an intern.
- * After successfully completing the Summer Bridging Program you are eligible for a \$3,000 scholarship.
- * Math preparation for college level classes.
- * New friends and connections.
- * Membership in the ANSEP family!

How long is the ANSEP Summer Bridging Program?

Ten weeks beginning in the first week of June and ending the second week of August.

Does the ANSEP Summer Bridging Program pay for airfare to and from Anchorage for students who do not live in the area?

Unfortunately, no. However, ANSEP Summer Bridging Program does pay for the following:

- * Housing on the UAA Campus
- * Transportation to and from work in the field
- * Math class
- * Meals during the Anchorage portion of the program (breakfast, lunch, and dinner)
- * Group activities

When do I have to use my ANSEP Summer Bridging Scholarship?

You must enroll in the University of Alaska in the fall semester after completing the program.
